We managed our business well and accelerated actions to grow revenue and expand operating margin. And our strong bookings — including consulting bookings of more than \$3.5 billion — show increasing demand for our services. We generated significant free cash flow, and our balance sheet remains exceptionally strong. We continued our commitment to return cash to shareholders through an increased semi-annual cash dividend, declared today, and through the repurchase of more than \$2 billion of our shares during fiscal 2010.

"We are working at the heart of our clients' businesses, helping them navigate the changing global environment and improve their performance. We will continue to invest in our core business, as well as in new growth areas and markets, to deliver increasing value to both our clients and shareholders. Despite ongoing challenges in the global economy, we are well-positioned for growth and expansion in the year ahead."

#### **Financial Review**

## **Fourth Quarter Fiscal 2010**

Net revenues for the fourth quarter of fiscal 2010 were \$5.42 billion, compared with \$5.15 billion for the fourth quarter of fiscal 2009, an increase of 5 percent in U.S. dollars and 8 percent in local currency. Net revenues for the fourth quarter of fiscal 2010 reflect a foreign-exchange impact of negative 3 percent compared with the fourth quarter of fiscal 2009, less than the negative 5 percent impact the Company had previously assumed. Adjusting for the actual foreign exchange impact in the fourth quarter, the Company's previously expected range for quarterly net revenues would have been \$5.25 billion to \$5.45 billion. Therefore, Accenture's fourth-quarter fiscal 2010 net revenues of \$5.42 billion were at the high end of the previously expected range.

- Consulting net revenues were \$3.09 billion, an increase of 6 percent in U.S. dollars and 9 percent in local currency compared with the fourth quarter of fiscal 2009.
- Outsourcing net revenues were \$2.33 billion, an increase of 4 percent in U.S. dollars and 7 percent in local currency compared with the fourth quarter of fiscal 2009.

Diluted EPS for the fourth quarter were \$0.66, compared with \$0.39 for the fourth quarter last year. The increase in EPS is broken down as:

- a \$0.24 increase reflecting the impact of the restructuring charge recorded in the fourth quarter last year;
- a \$0.06 increase from higher revenue and operating income in local currency; and
- a \$0.01 increase from a lower share count;

## Offset by:

- a \$0.02 decrease from unfavorable foreign-exchange rates compared with the fourth quarter of fiscal 2009; and
- a \$0.02 decrease from a higher effective income tax rate compared with the rate in the fourth quarter of fiscal 2009.

Operating income for the fourth quarter of fiscal 2010 was \$714 million, or 13.2 percent of net revenues. This compares with fourth-quarter fiscal 2009 operating income of \$420 million, or 8.2 percent of net revenues, on a GAAP basis and \$672 million, or 13.1 percent of net revenues, excluding the impact of the \$253 million restructuring charge recorded in the fourth quarter of fiscal 2009.

Gross margin (gross profit as a percentage of net revenues) for the fourth quarter was 34.0 percent, compared with 32.3 percent for the fourth quarter of fiscal 2009. Selling, general and administrative (SG&A) expenses for the fourth quarter were \$1.13 billion, or 20.9 percent of net revenues, compared with \$985 million, or 19.1 percent of net revenues, for the fourth quarter of fiscal 2009. The change in gross margin and in SG&A as a percentage of net revenues compared with the fourth quarter last year was primarily due to the implementation of the company's sales-effectiveness model, which the company described after the first quarter of fiscal 2010. This had no overall impact on reported operating expenses or operating margin.

The company's effective tax rate for the fourth quarter was 28.8 percent, compared with 27.6 percent for the fourth quarter of fiscal 2009.

Net income (previously "Income before minority interest") for the fourth quarter was \$510 million, compared with \$306 million for the same period of fiscal 2009, which included the impact of the restructuring charge in that quarter.

Operating cash flow for the fourth quarter was \$1.25 billion, and property and equipment additions were \$102 million. Free cash flow, defined as operating cash flow net of property and equipment additions, was \$1.15 billion, an increase of \$179 million over the fourth quarter of fiscal 2009. For the same period of fiscal 2009, operating cash flow was \$1.05 billion, property and equipment additions were \$75 million, and free cash flow was \$971 million.

Days services outstanding, or DSOs, were 30 days at Aug. 31, 2010, compared with 28 days at Aug. 31, 2009.

Accenture's total cash balance at Aug. 31, 2010 was \$4.84 billion, compared with \$4.54 billion at Aug. 31, 2009.

Utilization for the fourth quarter of fiscal 2010 was 86 percent, compared with 88 percent for the third quarter of fiscal 2010 and 86 percent for the fourth quarter of fiscal 2009.
